Ms / Mr

<u>Consent for collecting personal data during the employment procedure</u>

Within the context of my current application for a position at Friedrich-Alexander-Universität Erlangen-Nürnberg and for the purposes of checking whether the conditions for employment are met, I hereby consent to the human resources department P2 transferring the following data to a third party or requesting data to be collected from there as follows:

☐ Inspection of any personnel files relating to me at

☐ Inspection of any files regarding a criminal record or ongoing investigations, as well as any entries in the Federal Central Criminal Register

☐ Request to an official medical examiner at the relevant health authority to check whether health requirements for the position in question are met

[Only for applications within the framework of the Federal and State programme run by the German government for supporting young researchers:]

☐ I consent to my personal data being collected and processed within the context of the Federal and State programme for supporting young researchers funded by the Federal Ministry of Education and Research ('1000 professorships programme') in accordance with the General Data Protection Regulation, if applicable in conjunction with regional data protection provisions. This consent also applies to forwarding personal data required for justifying, implementing and processing funding from the programme, including monitoring (see Section 9 of the administrative agreement on the tenure track programme in conjunction with no. 6 of the funding guidelines, which can be viewed at www.tenuretrack.de).

I am aware that I can withdraw my consent at any time. Withdrawing consent shall not affect the legitimacy of the data processing conducted between the time consent is granted and the time consent is withdrawn. If it is no longer possible to check that the conditions for employment are met once consent has been withdrawn, I shall be deemed to have withdrawn my application.
